Since 2019, BNP CIB and Reforest’Action have entered into an exclusive partnership, adding reforestation features to a selection of investment products integrating ESG criteria.

2 OBJECTIVES

Help to restore damaged forests around the world by planting trees and implementing Assisted Natural Regeneration.

Provide an investment offering to our clients with additional tangible impact on the climate and biodiversity.

2 022 689 TREES were financed by BNPP CIB Global Markets and its clients within the last 3 years. This is the equivalent of three times the surface of the Bois de Boulogne in Paris.

MORE THAN 200 PROJECTS SUPPORTED IN 22 COUNTRIES

• 393 403 tons of CO2 stored
• 7 868 animal shelters created
• 10 490 756 months of oxygen generated
• 2 622 689 hours of work created

Carbon storage and combating climate change

Biodiversity preservation and development

PROJECT BENEFITS

THE CLIMATE

Plants are the natural planet’s own levens, taking carbon out of the atmosphere and releasing oxygen, thus helping to fight climate change.

BIOBODIVERSITY

Reforestation is a key issue of life on Earth. Reforest’Action’s forests feature a diverse range of species, from threatened to iconic, which all depend on one another to live.

WATER

The trees play a vital role in the water cycle. Amongst other things, they help combat climate change by reducing the amount of water evaporating, thereby releasing the water and rehydrating the soil.

WHY RESTORING FORESTS IS IMPORTANT?

North America
• USA
South America
• BR
Africa
• SD
Asia
• IN
Europe
• FR

ITALY, POMINO

Project launched in 2019
14 848 trees planted or regenerated
Naturally assisted regeneration and restoration of degraded lands impacted by game (deer, wild boar, stag) to enable them growing in the best conditions.

MORE INFORMATION CLICK HERE

INDONESIA, SUMATRA

Project launched in 2019
24 427 trees planted
Planting of five different species of mangroves, one of the most productive ecosystems in terms of biomass on the planet.

MORE INFORMATION CLICK HERE

PERU, TARIPO

Project launched in 2019
18 734 trees planted
Reforestation and diversification of various species in anagroforestry in the Amazon safeguard, bringing many benefits to local communities.
